CORRECTED AMENDMENT AND INTERVIEW SUMMARY

Dear Sirs:

This corrected amendment -submittal is submitted responsive to a telephone discussion with Examiner Abelson on June 7, 2006. In particular, this amendment is submitted to correct a now objected to form of listing of claims used in the previously filed Amendment dated April 8, 2002, where newly added Claims 45-56 were listed in the body without underlining and underlined in the attached version with changes shown (consistent with the rules at the time as understood by Applicant's undersigned representative). However, Claims 45, 47 and 49 were later amended and the United States Patent and Trademark Office (USPTO) procedures for presentation of amendments were modified since the earlier amendment was filed. Accordingly, the Listing of the Claims presented below reflects the amended form of Claims 45, 47 and 49 and the new USPTO format for presenting amendments to the claims.

A Listing of the Claims begins on page 2.

Remarks begin on page 19.
